RGS/MLA "A" letter

Nijmegen, July 31 1989

To: Secretary
Council for Tobacco Research-U.S.A., Inc
900 Third Avenue
New York, New York 10022

To whom it may concern,

We recently graduated from the Medical School of the University of Nijmegen, Holland and we will be participating in a research project on the developmental hazards of maternal exposure to tobacco smoke to respiratory structure and function in neonates. The project will take place at Georgetown University in Washington, DC.

Since we believe that this project and our participation in it strongly relate to the fundamentals of the Council for Tobacco Research, we kindly ask you to send us information on the grants your organization gives.

Yours sincerely,

Michael B. Oude Ophuis
